Acrylic eggs with dried flowers

Instructions No. 2430

Difficulty: Beginner

Working time: 1 hour

A quick and at the same time impressive Easter decoration is desired? Then these Easter eggs are just the perfect thing! The acrylic forms are filled with dried flowers, sealed and hung with taffeta ribbon.

It couldn't be simpler:

1. Fill one half of each Easter egg with dried flowers of your choice.

2. Close the egg with the second half.

3. Cut pieces of the taffeta ribbon, thread it through the hanging loop and knot the ends.

The eggs can now be hung on the Easter bush, outside on bushes or in the window. The decorative Easter eggs can also be used as name tags at Easter breakfasts.

To do this, either label a piece of paper with names and place it in the acrylic mould together with the dried flowers, or label the outside with a marker after filling and closing.

Must Have

VBS Acrylic egg, 6 cm, 6 pcs.

Number of parts: 12
Content: 6 pieces
Height: 6 cm
Material: Acrylic

5,10 CHF
