Boat with broken mosaic

Instructions No. 2978

Difficulty: Beginner

Working time: 5 Hours

Cast off! With this decorative wooden boat, you can bring that holiday feeling right into your home.

First paint some areas of the **boat** with **white handicraft paint**. Once dry, cover with the **soft glass mosaic** as desired.

Then mix a little **joint filler** mix with **water** to form a creamy paste and brush into the joints of the mosaic.

The excess paste can be easily removed with a damp **sponge**. Once the joint filler has dried, you can wipe the stones again with a dry cloth to make them shine again. Then take the **grout finish** and coat the mosaic with it.

To protect the boat from moisture, coat the wood (inside and out) with **wood stain varnish.**

If the boat is to be planted with plants, it is advisable to cover the inside of the boat with an additional **film**.

Finally, attach the **chain of light** over the plant.
