# Embroidered bag with line art

**Instructions No. 2283**

Difficulty: Beginner

Working time: 6 Hours

## This pretty Christmas bag was painted with fabric paint and then embroidered with a fir tree. The cotton bag has plenty of space inside for Christmas presents.

Paint coloured fields onto the bag with fabric paint. Then iron the bag from the left for approx. 5 minutes to fix the colour. The bag can then be washed at 40°C.

Print out the motif template and transfer it to the bag using carbon paper. Embroider the motif with a back stitch (approx. 2 mm long).

Remove the existing drawstring from the bag and thread the grey cord through the drawstring instead. Decorate the bag with eucalyptus branches, tags and a ball that has been labelled in advance with a marker.

# Must Have

## VBS Cotton bag

Width: 27 cm
Height: 45 cm
