Instructions No. 978

Small presents come out big in these boxes! Design the boxes individually according to your needs, with or without a view. The winter design-Paper in the current colours offers you a large Selection of decoration elements. Decorated with something Raffia and the trendy buttons, you have quickly created a loving packaging.

And it is as simple as that:

Put the desired Stencil on the design-Paper of your choice and draw the outlines. Cut out the contours and fold the packaging using the folding leg. Glue the pages together with the tape-Ribbon . For decoration, stick on the Raffia and the wooden buttons decoratively. You can also cut out individual motifs from Paper and stick them on, as you wish.

You can leave the window of the box open, stick the foil of the cellophane bag behind it or, for small delicacies, put the cellophane bag directly into the packaging.
