Advent candle holder with miniature scene

Instructions No. 2907

Difficulty: Beginner

Working time: 1 hour 30 Minutes

A beautiful Christmas decoration doesn't always have to be elaborate. This impressive light decoration with Christmas miniatures is very easy to make. In this tutorial you will learn how.

First glue **3x two craft blocks** together on the narrow sides with **VBS handicraft glue** together to create three individual long blocks. Now lay one of the glued blocks flat on the surface. Now glue the other two upright at the front and back of the long sides to create a U-shape.

Now glue the **candle holders** into the space in between.

Extend the built kandelaar with more **blocks** so that you have a small base for miniatures.

Paint the small **wooden train set** with **VBS craft paints** and allow the paint to dry.

Arrange the **miniature fir trees**, **moose** and **wooden train set** on the base and fix everything in place with some

handicraft glue.

Place **adhesive wax plates** in the candle holders and place the **stick candles** inside.
