

Advent wreath with natural materials

Instructions No. 2875

Difficulty: Beginner 

Working time: 1 hour

Advent is a special time of the year when we look forward to the upcoming Christmas and get in the mood for cosy hours in the company of our loved ones. A homemade Advent wreath is not only a beautiful decoration, but also a symbol of anticipation. In this tutorial, we will show you how to create a traditional Advent wreath with simple steps and natural materials.

Use the wreath "Willow" as a basis. Insert the tealight holders into the wreath at equal intervals and fix them with a little hot glue if necessary. This guarantees a secure hold.

Choose different dried flowers and blossoms from the potpourri set and arrange them on the wreath according to your wishes. Fix everything in place with hot glue and add a few star sprinkles.

A classic, beautiful wreath for the Advent season is ready.
