

Adventskalender mit edding Permanent Spray

Instructions No. 1078

A self-made calendar is a wonderful gift idea even before Christmas Eve. Make sure your loved ones are amazed, with a Advent Calendar in a modern design. With the permanent spray from edding, you can give your Advent Calendar a particularly great look - try it out now!

And it's as simple as that:

1. Spray creatively or use homemade cardboard stencils or Paper, to create great effects. For best results, the surface should always be clean, dry and free of grease.
2. First, paint the canvas in a cloister, covering the entire surface at a distance of approx. 25 cm, in a shade of your choice from the edding permanent spray range.
3. After a short drying time, place your stencils on the canvas and apply a second shade of colour to parts of the canvas using individual spray bursts of varying lengths. By moving the stencils several times you can achieve further effects.
