

Anleitung: Bestempelte Leuchtkugeln mit Strohseide

Instructions No. 662

Light globes are an absolute "must" if you want to create atmospheric islands of light in your living space. The foil parts are simply stuck Straw silk paper on for this purpose, which are available in many colours

And so it goes

Glue them Straw silk paper to the rough side of the foil parts and cut them out cleanly after drying. Then stamp the curlicues and accentuate the edges with the To emphasize Ink Pads. the fibers you can also wipe over them with the flat one Ink Pads

Then you put the foil parts together according to the instructions. Important: Make sure that the elements are always in the same position and that only 3 or 5 foil parts are joined together in the rosettes

Before inserting the last element, insert the light chain into the ball. Use a light chain with 20 lights for the large ball and a light chain with 10 lights for the small ball.
