

Anleitung: Keilrahmen als Multi-Talent

Instructions No. 115

⌚ Working time: 45 Minutes

Dates, dates, dates.. The focus of our creative stretcher design is this time an information board! This Stretched Canvas is first of all completely covered with colourful woven fabric. On the rustic Jute fabric one you create an apple motif - a great eye-catcher! According to our division you will then receive two areas for your messages: With small clothes pegs you can attach your notes and on the board is enough space for your messages. Have fun with the rebuilding!

Basis for the wallboard is a **Stretched Canvas** in the format 40 x 80 cm. This is first **covered** with a check fabric. For this the fabric is cut to approx. 84 x 44 cm. For the covering of the Stretched Canvas is painted with a thin layer of Effekt Glue and the fabric is then laid out smoothly. Simply smooth out any creases. After drying, glue the Stretched Canvas on the back with Effekt Glue.

In the meantime the **Painting board** fed up with **Board paint** coated, possibly in several layers of paint. The dried Painting board can now be fixed with Effekt Glue on the Stretched Canvas

A rectangle measuring 32 x 36 cm is cut from **jute fabric**. Pull fabric threads out of the edges of the fabric so that the edges get fringes. The piece of fabric is glued to Stretched Canvas with Effekt Glue. **Tip:** Don't apply Effekt Glue all the way to the edge so that the fringes remain loose.

Now first sketch the **apple** with the Strich-Ex pencil and then paint it with Acrylic paint : First apply the red tones and Cadmium Yellow thickly with a brush. The soft transitions between the Red- and yellow tones are worked with the wet-on-wet technique (yellow paint is painted into the still wet red paint and red paint into the still

For the note holder from Jute yarn two threads of approx. 50 cm length are cut off. Simply fix them on the back of the stretcher frame with hot glue, finally only still fix the wooden clamps.

Two more jute cords on the edge of the stretcher, which have a **Paint sponge** and holding a **blackboard chalk**, give the wallboard that special something.

wet yellow paint). The stem of the apple, the shadows and the contours of the apple are painted with the Umbra ..painted on fire
