

Bastelanleitung: Henkeltasche aus Scrapbookpapier

Instructions No. 1132

The beautiful punching sheet and paper set "Bellissima" is an ideal basis for paper handicrafts like this handbag. Whether as Gift wrapping or for storing special features - the handle bag is versatile and an eye-catcher in any case.

And it is as simple as that:

Which handicraft material do I need for the handle bag on Scrapbook paper?

Besides the Paper- and punching sheet set from the paper collection "Bellissima" you need the Stencil for handle bags. Further accessories are clips, pennants, decorative bows and stickers. For handicrafts we also use tape-Ribbon, scissors and Ink Pads .

How do I tinker the handle bag from Scrapbook paper?

For the handle bag, Stencil is first transferred to the desired Paper and then cut and folded. The side parts are glued together at the marking with tape-Ribbon . The bottom is closed by folding. The desired motifs are removed from the punched base, and then the pennant is assembled. Pennants and decorations can now be glued to the bag with tape-Ribbon . Labels from the punched base are attached to the pennant chain with clips. Finally, the bows are glued on and all paper parts are accentuated with stamping ink at the edges

Tip: For particularly beautiful edges, use a folding leg for folding.
