Sweet treats - Baklava recipe

Baklava are sweet dough slices consisting of many layers of dough with delicious walnut filling and sugar syrup. Approx. 270 g chopped walnuts are needed for the **filling**.

The **sugar syrup** is made by boiling about 600 g sugar with about 600 ml water in a pot for about 10 minutes. Then add some lemon juice, after another 10 minutes of simmering a thick liquid mass - the sugar syrup is created. Let it cool down. For the dough whisk 2 eggs, stir in approx. 150 ml milk, 150 ml cooking oil and ½ tsp vinegar. Gradually add 450 g flour and 1 packet of baking powder to the dough, knead well. Let the dough rest for about 20 minutes in a bowl covered with a cloth

To roll out, take a portion of dough, dust with cornflour and roll out as thin as possible. Place this layer in one Baking tin , fill it with chopped walnuts, add another thin layer of dough and fill it with chopped walnuts again, repeat this several times. A classic baklava has up to 30 layers of dough! Then melt butter, skim off the milky part (must not be used), pour the butter oil over the dough

Bake at 175 °C top/bottom heat for approx. 40 - 45 minutes **until** the baklava is golden brown, spread the sugar syrup over the hot cake. Cool down and let the syrup soak in overnight.
