Butterflies from transparent paper

Instructions No. 533

Difficulty: Beginner

Working time: 10 Minutes

These cute **butterflies** are a pretty little decoration that is made very quickly. You can use them to decorate your Easter shrub, put colourful dots on the coffee table and even attach them to a light, fragrant curtain with the practical **wooden clip**.

And so it goes:

For each butterfly, transfer the large template once to Craft cardboard sheet and Vellum paper and cut it out, then glue the two together with UHU Contact Kraftkleber.
Now transfer the small pattern to Vellum paper and cut it out.
Bend the wings upwards and glue the small butterfly only with the body on the big butterfly.
Bend the feeler out of decorative aluminium wire and fix it with a hot glue dot on the underside of the butterfly.
Finally glue the butterfly only on a wooden clip.
