Care shower gel with wash glove

Instructions No. 2765

Difficulty: Advanced

Working time: 2 Hours

These two **shower gels** are wonderfully **nourishing** and a beautiful eye-catcher in the bathroom. With the **personalised glove**, they also make an excellent gift for any occasion. The shower gel can also be customised to your needs by adding a selected skin care oil.

This is how the shower gels are made and decorated:

Overview of the different properties of skin care oils:

Calendula: The oil is moisture-regulating and suitable for oily skin.

Jojoba oil: The oil is regenerating and suitable for dry and flaky skin.

Almond oil: The oil is moisture balancing and suitable for dry skin

Argan oil: The oil is moisturising and suitable for all skin types

Shower gel in glass bottle:

First add 150 ml of **soap base gel** to the mixing cup. Add 1 tbsp **skin care oil** of your choice (we used argan oil). Then drip in a few drops of soap fragrance oil as desired. Now mix the mixture well, naturally the shower gel will become cloudy. Now fill it into the glass bottle.

Shower gel in pump bottle:

First measure out 300 ml of **soap base gel**. Add 2 tablespoons of **skin care oil** of your choice (we used jojoba oil). Then add a few drops of soap fragrance oil and soap colour to taste. Now mix the mixture well, naturally the shower gel will become cloudy. Now fill it into the pump bottle.

Labels:

Print out the **templates** with the **labels**. Cut them out and stick them to the cork board with a glue stick or double-sided tape. Cut the cork at a distance of 1 cm from the printed label. Stick the finished labels to the bottles.

Washing glove: The washing glove has a woven-in AIDA ribbon that can be embroidered in a creative and personalised way. By embroidering motifs or names, you can transform the white glove into a chic accessory in the bathroom.
