

Christmas wreath Pina

Instructions No. 3112

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 1 hour

This Advent wreath is a beautiful classic Christmas decoration that you can quickly create yourself. Combining a natural look with elegant gold, this arrangement will look great in almost any home.

First of all: Things to know about decorating wax

Before you start working with the decorating wax, you should put it in the fridge. It can be cut and punched very easily when chilled. Decorating wax already adheres to a candle by hand heat and does not require any further glue for fixing.

How to finish the Advent wreath

The off-white candles are decorated with 1 to 4 golden wax strips to match the weeks of Advent. You therefore need 10 decorative wax strips, each 6 cm long and 1 cm wide. Press the appropriate number of strips onto one of the candles for each week of Advent.

Plug the candle holders into the VBS fir wreath and place the candles on top. Now start decorating with golden baubles and red berries.

Cut the wire from some of the Christmas balls and insert them into the wreaths. Cut some berries from the berry branch and stick them into the wreaths with hot glue.

Must Have

VBS Fir wreath "Pina"
