Crocheted cotton pads

Instructions No. 1964

Difficulty: Beginner

Working time: 2 Hours

Enjoy the crochet fun for reusable cotton pads. The small pads are quickly Pot cloth yarn crocheted with classic. This is available in great colours and can be washed at 60°C.

This crochet idea is made with air stitches, warp stitches, fixed stitches and wales. Here we explain this row by row

1. Row: Crochet 4 air stitches and close this with a warp stitch, crochet 6 fixed stitches in it, close the row by crocheting a warp stitch in the first fixed stitch (gives a row of 6 stitches).

2. Row: Crochet 1 air stitch, then in each stitch (also in the first air stitch) in each case 2 fixed stitches, at the end a warp stitch in the first fixed stitch (gives a row of 12 stitches).

3rd row: Crochet 3 air stitches (these give the first bar) and another bar in the beginning stitch of the row, then 2 bars in each fixed stitch and close the row again with a warp stitch in the uppermost of the 3 air stitches around beginning of row (gives a row of 24 stitches)

4. Row: The last row is created in the following order: 1 air mesh, then alternately 2 fixed meshes and one fixed mesh into the following meshes, finally 1 warp mesh into the first air mesh (gives 36 meshes).
