Cup with alcohol Ink

Instructions No. 2004

Difficulty: Advanced

Working time: 2 Hours

How about designing colourful cups yourself? With **Alcohol Ink** you can create a dreamlike play of colours on porcelain and create your own favourite tableware. It's also great if you give your loved ones a mug that you have made especially for them. Joy is preprogrammed.

This is how the cups are designed:

If you wish to have a **writing** on your cup, apply it with the **porcelain brush pen** and burn it in the oven according to the manufacturer's instructions. With our used Brushpens this is 25 minutes at 160 degrees

Now you can design the lower part of the cup with Alcohol **Ink** as you like. You can also use the extender and a bellows

Pre-wash the cup piece by piece and do not put too much colour or extender on the cup at **once**, as the curvature makes it run easily and then it can no longer be processed in a controlled manner

Important: As the colours are not food safe, they only are used for decoration. Therefore, you should make sure that only the lower edge of the cup is designed and that the drinking rim remains free. Wash only by hand.

Must Have

VBS Coffee mug "Bellied", 12 pieces

Fill volume: 300 ml
Diameter (outside): 8.5 cm
Height: 9.5 cm
Material: Ceramics

42,95 CHF
