

Decorative tray with watering bunnies

Instructions No. 3259

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 1 hour

Make the **Easter season** even more beautiful and bring springtime freshness into your home. In just a few simple steps, you can create a **cute bunny family** and an individually decorated tray that will not only delight only the eyes, but also show off your craftsmanship!

Preparation of the casting moulds

Spray the molds with **baking spray** to make it easier to unmold the bunnies later.

Mixing the casting compound

Take about **8 tablespoons** of concrete for each mold and mix it carefully with water until you have an even, creamy mixture.

Make sure to fill the mixture only to just under **5 mm** below the edge of the mold to make it easier to remove the

castings later.

Tap the filled molds gently on the surface a few times. This will allow air bubbles to rise to the surface and give you a more even result.

Drying and demolding

Give your casting about **4 hours** to dry completely.

Then turn the mold over so that the opening is facing downwards and apply light pressure with the flat of your hand - this will loosen the concrete from base. Now tap the mold gently on a firm surface to slowly remove the casting.

Smooth any rough edges with **sandpaper**.

Decoration of the tray

Wrap an elegant **ribbon** around the edge of the tray.

Place your self-made **bunny figures** in the center and cover the bottom with moss.

Then decorate the tray with flowers and colorful eggs.

Now your bunny family is ready and forms a harmonious and cheerful arrangement!

Must Have

[VBS Decorative tray with bark, Rectangle](#)

● **13,65 CHF**
