Design your own wrapping paper

Instructions No. 2861

Difficulty: Beginner

Working time: 1 hour

All the Christmas presents are bought, now they just need to be wrapped nicely. Finding creative gift wrapping is sometimes easier said than done, because off-the-peg wrapping paper is often unimaginative, too kitschy or just doesn't fit the gift properly. You can design your own individual wrapping paper. Your friends and family will be especially pleased when they receive such a lovingly wrapped gift.
There are no limits to your ideas: Christmas greetings in beautiful handwriting, stars, angels, snowflakes or decorative bows - you can do it all simply and easily with edding gloss paint markers. The varnish-like opaque ink holds perfectly on smooth, light and dark surfaces. The versatile markers are available in up to 18 brilliant colours, including white and many metallic colours. There are different line widths to choose from.

Design your own wrapping paper – individual and personal

Before you start designing, activate the edding gloss varnish-marker according to the instructions. We recommend trying out the words you want to write on another sheet of Paper paper first. This is the best way to see what you like. You can work with round or square letters, in cursive or block letters.

We labeled the pink package with the black edding 780 and then emphasized individual letters with white shadows (with edding 751).

A large, imaginary bow is enthroned on the black gift. We drew this on the Paper with the silver-colored edding 751 and added a matching gift tag.

We used silver-colored wrapping paper for this packaging and let white snowflakes trickle onto the Paper . We used the white edding 780 with an extra-fine tip. There are no limits to your imagination when designing.
