Designing winter plug-in motifs

Instructions No. 3102

Difficulty: Beginner

Working time: 3 Hours

Christmas is just around the corner and what better way to decorate your home than **with creative craft projects**? These step-by-step instructions will show you how to create beautiful **pin motifs** that are not only only unique, but also easy to make.

Creative Christmas decorations: painting and decorating plug-in motifs

Step 1: Prepare and paint the pegboard motifs

Bring your craft paints into play to give the pegboard motifs the desired festive touch! Choose your desired craft paints. Carefully paint the pegboard motifs and make sure that you also cover the edges and surfaces well.

Then leave the paints to dry completely. An evenly dried surface ensures that the next steps can be carried out cleanly and easily.

Step 2: Apply decorative snow

As soon as the painted stick-on motifs are thoroughly dry, you can start applying decorative snow. The artificial snow gives the motifs an authentic, wintry look and creates even more Christmas spirit.

Apply the decorative snow directly from the liner to the desired areas. Slightly "snow-covered" lace or edges of the motifs look particularly beautiful. Be creative - there is no right or wrong!

Step 3: Stick the motifs together

Once the decorative snow has dried well, it's time for the exciting moment: put the individual motifs together! The motifs are designed to be stable and easy to handle at the same time. Check the fit of the plug-in parts and join them together according to the notches and slots provided.

If necessary, fix the mating points with a little glue to achieve even more stability
