

DIY soap rainbow sheep

Instructions No. 3031

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 3 Hours

The cheerful sheep are made from eco-friendly, vegan castable soap. You can colour them yourself with soap colour. When making your soaps, you can also use fragrance oils and main care oils to create each soap individually.

You can also mould the soap dish yourself. A great gift idea for your family and friends or even for yourself!

Pouring a soap dish

Time to dry: approx. 45 minutes Casting compound

Mix about 15 tbsp of the casting compound with water to form a creamy mixture and pour it into the casting mould. Demould it after the above-mentioned drying time and leave it to air dry for a while.

Coat the dried mould with 3 - 4 layers of plaster sealant. This coating seals the surface of the soap dish so that it is waterproof. You can then decorate the decorative plate with small splashes of paint, all you need is diluted acrylic paint and a brush.

Moulding soap bars

Time to dry: approx. 1 hour

Melt the eco pouring soap and add 3 - 4 drops of the soap colour depending on the desired colour intensity and about 1 - 2 drops of the soap scent. Mix the soap so that it is evenly coloured and there are no white streaks. Pour it into the casting moulds and leave to dry. About 0.5 tbsp of the solid soap is enough per soap.

Fold the box and fill it with wood wool. Finally, decorate the soaps in the boxes and on the soap dish.
