Flowerpot Cannibal

Instructions No. 1642

Discover here the winning idea of Moni - our 2nd place of the VBS The cheeky flower pot cannibal will certainly bring good humour to any garden.

The figure consists of 3 large Terracotta pots, which are stacked after painting to a large body with head. From 2 small Terracotta-pots each, the arms are created.

First paint a large pot with a great native mask - according to your personal taste. Big eyes, scary teeth, a colorful crown can be individually painted with permanent marker pens. Then make the finished painting weatherproof with a Protective varnish . Also paint the " upper body" accordingly.

Before the big pots are glued together, next paint the small arm-Terracotta-pots with a light blue stripe or other own patterns. Pull a strong Ribbon approx. 100 cm long Ribbon or a Cord through the pots. So that the **Terracotta-arms** hang well later, each arm is fixed at the bottom with a Pearl - just lead the Ribbon back through the bottoms of the pots and knot both ends firmly.

Now put the pot figure together. Glue "lower body" and "upper body" together with effect Glue - **this** adhesive effect of the transparent gel takes some time, for this it is especially good! Put the Ribbon with the Terracotta-sleeves now between body and head shape, stick them together with Effekt Glue.

The bast skirt is made very quickly by **knotting** many small natural bast strands on a thread (long enough to be wrapped around the body later). Simply "hairdress" them to the same length with scissors.

As a special something you can for example make a barrier for your figure with a round stick and aluminium

foil. Finally the head only is still planted and receives so its "hair".

Must Have

Terracotta pots, Inside-Ø 3 cm, 10 pcs.

Content: 10 pieces
Diameter (outside): 3.6 cm
Height: 3 cm
Material: Terracotta

5,95 CHF
