Homemade fabric bunnies

Instructions No. 1707

Difficulty: Beginner

Working time: 45 Minutes

Easter bunny sewing made easy: This cute bunny band is perfect as a decorative eye-catcher on the windowsill or a chest of drawers at Easter time. The sewing project is quick and easy to implement and can therefore also be sewn by sewing beginners.

First download the **design template** and cut it out. Then lay the fabric right sides together (printed motif is inside) and transfer the template to the fabric you have chosen. When cutting, please allow for a seam allowance **of** about 1 cm

Now you can sew the fabric together and thus the Easter bunny. You have to leave the seam between the ears open for the later filling. Then cut small notches along the ears into the seam edges just before the seam, so that the ears can be better shaped later. Now the two corners of the bottom must be folded crosswise to the longitudinal seam. Then a short seam is stitched across the formed Lace ones, so that the bottom becomes a rectangle

Now turn the bunny and fill it with cotton wool. Now you have to **sew** the open seam between the ears by hand e.g. with a ladder stitch. Now add a double knot over it, so that the ears also get their desired shape. Finally you can finish with a **Fabric painting pen** paint your eyes and nose on the fabric.

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.
