Illuminated deer with straw silk

Instructions No. 698

Difficulty: Beginner

This little deer is deliberately simple in design. The wooden elements are Straw silk paper glued on, the face is designed with few contours. Quite simple - quite timeless.

Here's **how it works**

Prime the individual parts of Standing figure ivory and let them dry.
Glue the Straw silk paper with Napkin varnish on the different parts: Light brown on the deer, light green on the tree, Dark brown on the base plate and the hooves of the deer.
After drying, cut back the remaining Paper with the scalpel.
With the Ink Pads wipe over the Straw silk paper and work out the structures.
Paint the outline of the head with black Handicraft paint .
Put the lights of the fairy lights into the tree holes and fix them from behind with hot glue.
Put the single parts together and if necessary stabilize them with hot glue.
Cut the bark pieces to size and glue them to the base plate.
Tip: Lead the cable through the legs of the deer to the back, then you cannot see it from the front.

Must Have

Standing figures "Snowman and moose

Number of parts: 4
