Illuminated pyramid made of bamboo sticks

Instructions No. 2881

Difficulty: Beginner

Working time: 2 Hours

Create a beautiful **light pyramid** with just a few materials. The length of the **bamboo sticks** allows you to create pyramids of different sizes and decorate them with Christmas decorations and figures.

This is how the pyramid is built:

Glue four **feet** to the **rattan cane base wooden balls** as feet. Then paint with gray **handicraft paint** paint.

Once the paint has dried, insert the **bamboo skewers** into the holes. Using a piece of the **cotton cord**knot the bamboo skewers together at the top end. Then wrap everything with cotton cord and fix with handicraft glue from time to time.

After drying, wrap the **chain of light** around the pyramid. Finally, glue some "Oakley" stars to the pyramid using handicraft glue .
