

Instructions for colourful flowers made from aluminium sheeting

Instructions No. 590

Flowers made of colourful aluminium sheeting bring colour into the garden, even if Sun should not shine. With the help of these instructions you can make your own metal plugs **for** outside.

And so it goes:

Transfer the petals from onto the aluminium sheet using the metal pressing tool and cut them out.

Stick scrapbook paper on some petals of the large flower as desired, paint others first and then stamp them with the curlicues Handicraft paint

Stamp different curlicues on the back of the petals and emboss them plastically

Paint Handicraft paint the leaves of the small flower completely and after drying, paint them on by hand with coloured motives.

The edges of the petals with the accentuate, Ink Pads then glue all parts with hot glue

Emphasize the center of the big flower with a circle and a small painted flower, glue Wooden platine a painted flower in the center of the small flower.

Paint the round bars and fix them behind the flowers with Effekt Glue

Tip: For a better fixation, fix a strip of aluminium sheet on top with Effect Glue.
