Instructions for marbled egg vases in an Easter hanging wreath

Instructions No. 1063

This opulent looking Easter wreath will certainly arouse spring fever and anticipation for Easter! For the wreath, eggs are marbled and the hanging wreath is cleverly decorated with flowers and bows.

This is how the Easter wreath is decorated:

How do I make marbled Easter eggs-vases?

First marble some plastic eggs as described in the instructions. Leave the wooden skewer attached to the egg. Now remove the lid of the egg: with a side cutter, cut the egg at the tip and gradually break out individual parts of the Ice until a slightly larger opening is created. Over this opening the wooden skewer is fixed with hot glue inside the Ice . So the eggs can be put later quite simply into the wreath.

How to decorate the Easter wreath

First of all, the willow wreath will be provided with hangers-Ribbon : To do this, fix a Ribbon, at three points on the wreath with even spacing, for example a narrow Satin ribbon. Bring all three satin ribbons together so that the wreath hangs as horizontally as possible. Now test if the length fits to the later hanging up and knot all three satin ribbons together. First of all, arrange the prefabricated eggs on the wreath. For the two-coloured ribbon bows, two decorative ribbons in the shape of an eight are placed on top of each other and fixed with a thin wire. You need four of these loops and can attach them to the wreath with the end of the wire. In our handicraft idea we decorated the wreath afterwards with another two-coloured Ribbon . Finally, artificial spring flowers are separated from the individual picks and draped into the eggs with hot glue.

Handicraft instructions for the marbling of eggs

Special marbling paint is used for marbling. As described in the instructions supplied, fill a bucket with water and drip a little Colour for marbling into it (approx. 2 - 3 drops per colour tone). A film of paint will now form on the water surface. With the help of a brush, a pattern can be drawn into this film as desired. The eggs are skewered on shashlik skewers and slowly pulled through the water, the colour in marble look is transferred to Easter eggs .

Must Have

VBS Wreath with vines, Ø 25 cm

Diameter (outside): 25 cm
Thickness: 5.5 cm
Material: Brushwood

9,30 CHF
