Little ghosts made of fabric

Instructions No. 2922

Difficulty: Beginner

Working time: 45 Minutes

Boooh! You can easily make these beautiful **ghosts** yourself. Illuminated with an LED tea light, they shine and haunt. A great decoration for **Halloween**!

The ghosts are made like this:

Cut out circles from the **cotton fabric** Circles (ours have a diameter of 21 cm). Place them on an object to find the right place for the eyes. Draw them on delicately and cut them into the fabric.

Place one **handicraft mat** on the table to protect it from dirt. Now pour the **setting agent** into the mixing cup and dip the fabric cuts into it. Take them out and put them back on the object on which they are to be shaped and dried. You should also move the ghosts from time to time so that they do not stick to the surface.

The ghosts will be dry after approx. 12 hours. You can illuminate them with **LED tea lights**, for example.
