Make your own Halloween decorations - tea lights for Halloween

Instructions No. 3360

Difficulty: Beginner

Working time: 1 hour

Spooky atmosphere in a nutshell: Design your own Halloween tea lights

When the evenings get longer and darkness falls, Halloween is not far away. Now is the perfect time to decorate your home with spooky lights. In this guide, I'll show you how to create stunning Halloween-tealight holders with little effort.

Halloween tea lights - instructions

Step 1: Making the banderole

For the banderole, cut a rectangle measuring approx. 25.5 x 7.5 cm from the straw silk paper . If you are using a different wind light or would like a little more straw silk paper to overlap, adjust the width. Attach the double-sided adhesive tape to the end of the rectangle. Place the banderole as tightly as possible around the glass, remove the

protective film from adhesive tape and stick the straw silk paper in place. If you have difficulties, you can also fix the banderole directly to the glass with the adhesive tape .

Step 2: The decoration

To decorate your lanterns, you can either use our template or make your own designs. Make sure that the size of the motifs matches wind light . transfer the templates to the black craft cardboard sheet and cut them out. You can glue the motifs completely onto the straw silk paper or partially so that some parts stick out.

Step 3: Final lighting

Finally, place the lit LED tea lights in the glass and create an instant Halloween atmosphere. This homemade decoration is not only only simple, but also an absolute eye-catcher.

Have fun being spooky! :)
