Marbled garden balls

Instructions No. 2970

Difficulty: Beginner

Working time: 1 hour

Our chic **garden baubles**, also known as rose baubles, are impressive thanks to their **marbling effect**. They are easy to make and are an eye-catcher in the garden. Thanks to the plastic ball and the marbling colors used, the otherwise expensive garden plugs are easy to make with low material costs.

This is how you shape the balls:

Protect your workplace with a VBS **handicraft mat**. Take an old container and fill it with lukewarm water. Test whether your **plastic balls** fit into it.

For each **marbling process**, add a few drops of your **colour for marbling** in your desired colors into the container. Use a bamboo skewer to draw a pattern as desired. Place your plastic ball on the matching round stick and dip the ball into the water with a slight twisting motion. Pull it out and put the stick with the ball into the drying rack to dry flower arrangement foam.

Finally, you can knot satin ribbons around the socket of the ball.
