

Marbled garden balls

Instructions No. 2970

Difficulty: Beginner 

Working time: 1 hour

Our chic **garden baubles**, also known as rose baubles, are impressive thanks to their **marbling effect**. They are easy to make and are an eye-catcher in the garden. Thanks to the plastic ball and the colours for marbling, the otherwise expensive garden plugs are easy to make with low material costs.

This is how you design the balls:

Protect your workstation with a **VBS handicraft mat**. Take an old container and fill it with lukewarm water. Test whether your **plastic balls** fit into it.

For each **marbling process**, add a few drops of **colour for marbling** in your desired colours to the container. Use a bamboo skewer to draw a pattern as desired. Plug your plastic balls onto the matching round bars and dip the ball into the water with a slight twisting motion. Pull it out and place the stick with the ball in the flower arrangement foam to dry.

Finally, you can knot satin ribbon around the socket of the ball.
