

# Maritime Deko-Schale mit Serviettentechnik

Instructions No. 356

The sturdy papier-mâché bowl with its clear shapes is perfect for designing with The Napkin technique. individual motif fields have exactly the right size for the wide rim. The compartments are decorated with shells and tea lights.

Prime the upper part of the bowl white, paint the remaining areas with a colour mixture of white and some Navy blue .

Cut the Napkin into matching strips and stick the printed layer onto the white primed edge with Napkin varnish . After drying, accentuate the edges and the individual compartments with brown stamping ink. To do this, wipe over the edges directly with Ink Pads or pick up the stamping ink with a kitchen towel.

Glue the Jute yarn with hot glue around the edge and knot it. Cut strips of about 18 x 3 cm from the plucking, remove a few threads from the edges and stick the frayed strips around the glasses with tape-Ribbon . Ink the shells with some stamping ink and stick them with the starfish on the glasses. Finally fill Decorative sand into the compartments and decorate with the glasses, shells and other maritime accessories.

This idea is timelessly beautiful!
