

# Maritime Lichtboxen

Instructions No. 1603

Difficulty: Advanced 🍴🍴🍴🍴

Working time: 1 hour

Create a **highlight** in your home with these **maritime light boxes**. Lightboxes are **easy to make yourself and to design individually**. A **wonderful light source** in your own four walls.

## Preparation of the cardboard frame

First **prime** a round **cardboard frame** with white Acrylic paint and let it dry. Each light box is decorated with **DécoPatch** Paper Cut this to size and stick it on the frame. Use a brush and DécoPatch lacquer.

Now place the frame on your **Lamp foil** and mark the outer circle with a pencil. Cut the Lamp foil to size.

**Tip:** Our **star foil Magic Star** conjures up extraordinary light effects. Illuminated with a chain of lights, many shining

stars come to light.

**Light box "Ahoi"**

**The light box "Ahoi" gets its special look from the flotsam and the shell optic**

The Lamp foil is equipped with **stamping ink**, a **brush** and **Stencil** decorated with Sea shell- or beach motif. The best way is to spray Stencil in advance with **temporary spray glue** so it can't slip. Then place the Stencil on your foil and use a brush to dab the design on.

You **can** print out our **lettering "Ahoi"** or you can choose a lettering according to your wishes. Put your message under the foil and paint it with a **Marker** after. In our example, we have added **further accents to the font** as nights with a **white Marker** .

In the next step you can open the slide **with Handicraft glue** onto the frame. The adhesive seam and thus the edge of the self-made light box is then glued with decorative **Driftwood** ornamented

**Driftwood** and also the **chain of lights** on the **back of the** light box we have fixed to the frame at some points with hot glue.

## Light box "compass rose"

The Lamp foil of the light box "wind rose" is not painted with the usual Hobby Colour but with stamp ink. Use a [Ink Pads in the colour "Petrol" and dab](#) the entire cut Lamp foil with a sponge-stabbing brush.

The compass rose of this light box is painted on with a stencil. After the stamping ink has dried, spray the stencil with [temporary spray glue](#) to prevent it from slipping. The Stencil is placed centrally on the foil and dabbed with **stamping ink** . We have designed our compass rose in Stone Grey . As soon as the ink has dried, the **Craft foil** with **Handicraft glue** can be glued to the frame.

For the light box edge now a [Cotton cord](#) triple and knot a sailor's knot into it, e.g. a square knot. Glue the Cord with **hot glue** to the edge of the cardboard frame and decorate it according to your personal taste also with shells, **Driftwood** and **scattering**.

Finally, **fix** a [micro LED light chain](#) inside the frame with the [hot glue gun](#).

**Your atmospheric lighting is ready! Enjoy your new light source and the admiration of your guests.**

Must Have

VBS Star foil "Magic Star"

● **6,65 CHF** (1 m2 = 26,60 CHF)
