Marmorierte Federtasche

Instructions No. 1609

Difficulty: Beginner

Working time: 1 hour

With the **marbling technique** you can **conjure up** great **Marble patterns**. Try it out right away!

In our example we **marbled** a Pencil case with the help of **shaving foam**, of course other fabric articles are also possible. Make sure that only is stuffed or that something is placed in the middle to protect it so that the colour cannot penetrate, like a cushion cover.

Stuff the **Pencil case** looks good, e.g. with a washcloth, so that it can easily take on the colour.

Take a **big vessel.** This must be large enough so that Pencil case fits in well. Pour into this **shaving foam** and smooth the surface with a spatula, knife or similar.

Now you can apply your **desired fabric paints to the** shaving foam. Drop or shake them gently. After all the colours have been applied, mix them carefully with a stick until an even **Marble pattern** is created.

Place your stuffed Pencil case on the edge of your vessel, press it lightly and turn it so that the Pencil case **is**

marbled all over.
Tip: If you do not want to have marbled surfaces, tape it with Adhesive tape .

Now **remove** the shaving foam with a spatula, ruler or similar. Make sure that you clean the spatula in between, otherwise stains will appear. Allow to **dry** .

Now dab ink onto the stamps, preferably with the help of sponge brushes. Place the **stamp** in the desired position and press it firmly onto **the** fabric. You can now decorate the motifs with **glitter liners**.

Must Have

VBS Pencil case with zip

Length: 20.5 cm
Diameter (outside): 5.5 cm

4,65 CHF
