Mini-christmas crib made from craft blocks and castings

Instructions No. 3084

Difficulty: Beginner

Working time: 3 Hours

Our self-made **christmas crib** made from **wooden blocks** and **castings** is a highlight. The stand for the christmas crib can be created and decorated entirely according to your own ideas using the craft blocks. The christmas crib and the corresponding people and animals are cast by yourself and can be kept plain white or colored and decorated as desired.

How to design the christmas crib:

Mix 3 heaped tablespoons **of Raysin** with water to form a creamy mixture.

Pour the mixture into the **mold**. Press the mixing cup together a little so that nothing goes wrong. Tap the mold a few times. This will cause the air bubbles to rise and you will later have a smooth surface. After approx. 30 minutes, you can carefully press the figures out of the mold. The edges can be smoothed with sandpaper

Glue 5 **craft blocks** with **handicraft glue** on the long, narrow sides to form a base plate. Glue another five blocks on top to create further levels and heights.

Use hot glue to attach a chain of light to the back of the house and **pieces of driftwood** to the roof.

Now attach all the figures, Iceland moss and some driftwood to the different levels of the craft blocks using hot glue.

Must Have

Silicone casting mould "Mini christmas crib"

Motif size: 6.3 - 15 cm
Number of motifs: 12
Fill volume: 110 ml
Length: 26 cm
Width: 14.5 cm
Height: 1 cm
Material: Silicone

16,30 CHF
