

Painted stones for the garden

Instructions No. 1355

🔪🔪🔪 Difficulty: Advanced

🕒 Working time: 40 Minutes

From now on everyone knows exactly what is planted where.

With only little paint, anyone can paint the new highlights of the vegetable garden from simple stones.

Medium sized stones were used for this idea. Many of us already have such stones in our garden, otherwise such stones are available for example in the DIY store.

And so it is done

With a pencil on each Stone the vegetables are marked out. With Outdoor Color paint and a brush the motive simply colored arrange.

As an alternative to illustrating the vegetables, you can also simply work with writing and symbols. You can design freely according to your own ideas!

For a slightly shiny surface, paint the painting with Napkin varnish.

Extra tip

Besides the colourful stones, there are many other ideas how to decorate that "certain something" in the garden with little effort. Let the following instructions inspire you:
