Pot Fox + Frog

Instructions No. 2289

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

Make these cute **pots**! They are easily designed with a little craft paint and the **Décopatch technique**. Afterwards, they are perfect for plants as well as for storing accessories and utensils. Even for children, crafting with the Décopatch technique is fun!
Other animals are also easy to create: how about a cat or an owl, for example? As you can see, there is no limit to your imagination.

This is how you make the cute animals:

First, prime the **flower pots** with white **craft paint**. Then pre-paint the faces with pencil and colour them in with craft paint.

Design the bodies with **Décopatch papers**. To do this, tear the papers you want into small pieces. Now apply a layer

of glue to one part of the flower pot and place a scrap of your paper on top. Apply another layer of glue to the piece of paper. Continue in this way until the flower pot is covered with papers according to your wishes.

Transfer the pattern to **foam rubber** and cut out the designs. Paint the feet with craft colours and then glue them to the legs.

The last step is to glue on the **wiggly eyes**.

Now you can decorate the pots as you wish. How about a plant or use the pots to store utensils and accessories.
