Secret Santa Door on Wooden Shelf

Instructions No. 2549

Difficulty: Advanced

Working time: 6 Hours

Create a beautiful **summery miniature world** - a perfect home for **fairies, elves and pixies**! Cute accessories round off the scene and can be placed anywhere by arranging them in the frame.

This is how you design the beautiful miniature world:

Design the **houses** as you like with **craft paints**. Here, for example, the front visible edges were painted. In addition, mask a strip on the roof with masking tape, which was painted in the same colour in each case.

Choose a paper from the **scrapbook pad** and cut the sizes of the backs of the houses. Glue the inside to the back wall with craft glue.

Cut the **grass mat** and attach it with craft glue as well.

Paint the **door** and the **window**. In our example, we painted the windows and door frame in white, and the door leaf in lavender. The door leaf is glued directly to the designed back wall of the big house with craft glue, as is the window. For a special depth effect, the door frame, on the other hand, is attached with 3D adhesive pads.

Pond:

Select broken **mosaic** in different shades of blue and glue them directly onto the grass mat with the transparent joint filler. After a short drying time, cover the entire surface of the "pond" once with the joint filler.

Scatter **natural stones** around the edge of the pond and press them slightly into the joint filler. Allow to dry thoroughly! (best over night)

Fold a small **paper boat** out of a piece of paper and stick it on the pond surface.

Door wreath:

Cut off about 8 cm of the **flower garland** and twist it into each other to make a ring about 3 cm in diameter. Make a tiny "Welcome" sign out of a small piece of kraft paper and stick it onto the wreath. Glue it to the door (you can also use the joint glue for this, as it fits better into the uneven surface than the normal craft glue).

The **fence** parts, **table** and **chair** and **tree** can also be attached with the joint filler.

Parasol foot:

Add a strip of joint filler to the edge of the foot and press natural stones into it. Paint the area inside this circle black so that it looks like potting soil. When the paint has dried, apply joint filler and press in individual flowers of the baby's breath.

Decorate the **window** and **rose arch** with flower garland.

Glue a **wooden olive** on the table as a flower vase and glue individual stems of baby's breath into it.

Place a **straw hat** on the chair and glue it in place if necessary.

Colourfully paint the **pennant chain** and attach it to the houses.
