

Seife mit einlamierten Bildern

Instructions No. 398

Soap pouring is a hobby with an addictive factor, because it is very easy and offers an incredible number of different possibilities. Once you have started, there are always new colours, shapes and patterns to try out. Shrink-wrapped in laminating foil, you can use printed motifs from craft papers, Napkins, magazines and even photos to create your own personal soap. A great gift for many occasions.
