Sommerliche Flamingo-Deko

Instructions No. 1485

Difficulty: Beginner

Working time: 15 Minutes

Are you looking for a stylish summer decoration for outside? Treat yourself to little flamingos!

DIY project for trendsetters

Small flamingos are currently THE decoration objects. They are made of papier-mâché and can be designed here at Colour spray

But before spraying you should **read**the following **mini instructions**:

First,**protect** your work surface and your surroundings from unwanted spray paint. For this idea, we recommend Flamingo To put figures in an old cardboard box. The Colour spray should be held with a distance of about 30 cm on the object.

Primer a Flamingo with Colour spray in the colour "Telemagenta", the second Flamingo in Mellow Mint. The sprayed-on paint will dry within a few minutes. **Spray** the respective stand in pastel pink or turquoise. The second colour creates an exciting look.

So that your Flamingo Objects are also well protected outside, we recommend to finish the figures with **Clear varnish** to spray. With this protective layer, they are weatherproof and the colours look even more intense.

More ideas for your relaxation oasis...

Let our summery sewing and craft ideas inspire you to create your own creative projects:

- **Instruction 1483** explains how to **sew** a great mattress **for children** very easily. This is also used by "grown-ups" as a comfortable floor cushion.
- The **summery drinking glass covers** presented in **instruction 1484** look great and protect against insects. Above all, however, the protective covers can even be made by the very young (from 3 years).
- With the idea Hanging **Flower Decorations** presented in **instruction 1453** you **are** absolutely trendy. The fascinating hanging "mini gardens" are also a great gift idea!
