Spring house decorations

Instructions No. 2981

Difficulty: Beginner

Working time: 3 Hours

Add a unique touch to your home with the wood building kit "Häuserreihe" by customizing it with the branding pens.

First, the **facades of the houses** are painted with the **colors** mentioned above. Then the windows, doors, roofs and chimney can be glued on. To achieve a harmonious effect, we recommend painting the surface of the base **antique white**. The front of the birdhouse is an ideal surface for **hand lettering**. Use a **branding iron** to burn in your lettering as in our example.

Tip: If you are inexperienced in hand lettering, you can also print out a desired saying and transfer it to the wood using **blue paper**. You can then burn the lettering onto the wood with the **branding pen**. This will give you an individual and appealing lettering on the front of the birdhouse.
