

Springtime birdhouse

Instructions No. 2979

Difficulty: Beginner 

Working time: 2 Hours

Offer your feathered friends a cosy home in your garden! Create a new bird house where the birds can feel at home and make themselves at home. A real eye-catcher in the garden, on the balcony or terrace!

It's that simple:

First prime the bird house with craft paint. Then you can paint on the stems and leaves of the flowers. Once the paint has dried, you can glue the scattered parts to the bird house using craft glue. Allow the glue to dry well.

To protect the bird house from the weather, we recommend an additional protective coat of VBS acrylic paint.

Coat the bird house evenly with acrylic varnish and leave to dry completely. This additional sealant helps to ensure that your artistically designed bird house remains beautiful for longer and provides the birds with a protected home.
