Summer light chain with marbled lampshades

Instructions No. 591

The lampshades of this summery chain of lights are marbled with bright colours. It's super fast and a lot of fun!

Here's how it works:

Insert the metal brackets into the lanterns and tighten them carefully
Line a container with a plastic bag and fill it with water
Tip: The diameter of the container should not be much larger than the diameter of the lanterns.
Dribble three marbling colours per lantern onto the surface and draw a pattern with a wooden stick.
Tip: First drip on the lighter colour, then the darker ones
Slowly dip the lanterns in, pull them out quickly and let them dry.
After marbling, cut a hole in the bag and drain off the water, discard the paint leftovers in the bag.
Insert two lights of the light chain into each lantern and fix them with aluminium wire if necessary.
Tie colored satin ribbons at the bottom of each lantern.

Must Have

VBS Lampion lampshades

Content: 10 pieces
Diameter (outside): 9 cm
Material: Paper

20,40 CHF
