

Umhäkelte Glaslaternen

Instructions No. 281

It's as simple as that

Cast 45 air stitches and close them with a warp stitch to form a ring. Then crochet in rounds to the desired height. You can use the instructions for the lampshade as a guide

Tip: Crochet double sticks to thread through Satin ribbon a 6 mm wide one. When the desired height is reached, fold the ends.

Now you can decorate the lanterns as you like. Thread in Satin ribbon the crochet work or sew on a flower as you like

In addition, you can cut bark to the desired width with scissors and stick it around the lantern-Ribbon with tape. Secure it with rubber bands for a few days until the bark has adapted to the rounding and adheres securely.

Must Have

VBS Glass lantern with metal bracket

● **3,55 CHF**
