

VBS Handicraft set “Pompon monster”

Instructions No. 2699

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 4 Hours

Fun for the whole family. Whether small, large, colourful or plain, these monsters are always a fun eye-catcher.

In addition to the materials included in the craft kit, you will need scissors, a fineliner and some hot glue.

1. Select a pompon maker of your choice. Place the two halves on top of each other.
2. Now wrap wool of any colour around it. When both halves are wrapped with wool, press them together and connect them with the bar.
3. Cut the wool along the outside of the ring. Place a piece of wool between the two pompon halves and knot it tightly. Now you can open the latch and remove the pompon.
4. Then you need to cut the pompon into shape with scissors.
5. Transfer the templates for the teeth onto the white craft felt with a fineliner. Now cut them out. Use a little hot glue to stick the teeth to the pompon.
6. Bend the chenille wire for the arms, legs and eyes into any shape. Choose matching wiggly eyes and glue them to the pompon with a little hot glue as well - and your monster is ready!

Article information:
