

# Wall painting driftwood sailing ship

Instructions No. 1980

Difficulty: Beginner 🍃🍃🍃🍃

Working time: 30 Minutes

Would you like a fresh breeze at the home? For this maritime mural you need little only time.

## Primer and wipe look

First you prime the **Stretched Canvas** with white paint and let it dry. Take some blue **paint** on a brush and then moisten it with water. Wipe carefully over the picture surface - you will get a light blue watercolour look. This gives a great **background**.

## Maritime mosaic

**Arrange** for **Driftwood** ..in front of him to sail ships. Cut the **round bar** to a length of approx. 24 cm and position it as a mast. Round driftwoods are ideal as mosaic pieces for the hull of a ship.

Once you are satisfied with the laying pattern, **paint** the surfaces of the wood in different shades of blue. To give your picture a harmonious colour contrast, use orange paint to turn another matching piece into a flying seagull.

Now **glue** the mosaic picture piece by piece with or hot-melt Handicraft glue adhesive on it and Stretched Canvas enjoy your maritime look.
