

Weihnachtlicher Kranz mit Häuserdeko

Instructions No. 2871

Difficulty: Beginner 🍴🍴🍴🍴

Working time: 2 Hours

Want to bring the festive magic of Christmas into your home? We have a simple tutorial for you on how to make your own Christmas wreath with houses.

Design your own Christmas wreath

First paint all the scatter pieces with houses and stars in the colours of your choice. In our example, we used classic Christmas colours.

We hung the big stars together with the bells and the small stars in the middle of the wreath with a perlon thread as decoration. This gives the wreath a whole new look. On top of the wreath, where the perlon thread is attached, the print ribbon is now tied with a beautiful bow. The length of the ribbon can be chosen as desired.

Finally, the houses and the stars are glued onto and into the wreath with a little hot glue. For the stars we chose an alternating and even pattern. We arranged the houses at the bottom of the wreath to create a small row of houses.

The decorative wreath is ready and the Christmas season can begin.
