Welcome to our midst - Birth card

Instructions No. 974

Welcome new citizen of the earth! Share with friends, relatives and the godparents and send such a personalized card. Whether size, time, and weight, on each flower you will have enough space to name all important details. This good news is guaranteed to put a smile on the face of the recipient.

And it is as simple as that:

Make a circle template with a diameter of 10 cm. Choose the desired design from Motif block and cut out 10 circles. Punch out 4 XXL flowers from a suitable Paper and glue them in the middle of the circles. Cut out the photo for the fifth circle and glue it on as well. Punch small holes in the bends of the XXL flowers and around the photo and glue them with the Brads decorate. To cover the clips, glue the counterparts behind the circles. To join the circles to form a flower, punch a hole close to the edge, connect it with a brad and a flower.

To make perfect circles, you can use a compass.
